

CAPABILITY STATEMENT

ARCHITECTURAL | ENGINEERING | DIGITAL SIGNAGE SOLUTIONS NATIONWIDE

COMPANY OVERVIEW

Founded in 1984, United Signs is a national signage partner specializing in design, engineering, manufacturing, project management and installation. Our turnkey model provides one point of responsibility from site survey and concept development through permitting, fabrication, installation, closeout and ongoing support - helping protect brand consistency, code compliance, quality and schedule across single-site and multi-location programs.

CORE CAPABILITIES

- Architectural signage: channel letters, building identification, monument and pylon signs, dimensional letters, plaques, lobby, interior, ADA and regulatory signage.
- Digital signage and LED: interior/exterior LED displays, electronic message centers, digital billboards, video walls, sports displays, scoreboards and mobile LED solutions.
- Engineering and complex installations: structural sign engineering, high-rise signage, wind-load analysis, custom mounting and code-compliant engineered systems.
- Turnkey project services: surveys, design, code and zoning review, permitting, project management, manufacturing, nationwide installation, closeout, service and maintenance.

KEY DIFFERENTIATORS

- 40+ years of signage experience
- Single-source project accountability
- Nationwide and multi-location execution
- Structural engineering for demanding installations
- Direct manufacturing and quality control
- UL-listed electrical components; NEC, ADA and local-code focus
- Lifecycle service, maintenance, training and support

INDUSTRIES SERVED

Automotive • Banking & Financial • Corporate • Education • Entertainment • Faith-Based • Government & Municipal • Healthcare • Hospitality • Multifamily • Retail • Sports & Recreation

WHY UNITED SIGNS

MAKE COMPLEX SIGNAGE PROJECTS EASIER TO EXECUTE.

United Signs combines experienced project management, engineering, fabrication, digital display expertise, installation and support under one organization. From a single monument sign or facility wayfinding system to a high-rise installation, LED display or nationwide rebranding program, we take the project from concept through completion.
